

Gazetta da scoula

2 / 2017
gün, 2. annada

Per no tuots es la cumünanza üna part importanta. Sulets nu vaja adüna ed insembel – nu's poja adüna cleger oura cun chi ! Però cun toleranza ed avertezza vicendaivla es üna buna cumünanza pussibla e quai da Guarda fin giò Sent e dafatta sur il cunfin da nos cumün oura. Quista gazetta da scoula sta suot l'insaina da la cumünanza ed es gnüda scritta dals scolars dal s-chalin ot. Perquai cha quels van a scoula 'be' a Scuol e Sent sun els di per di confruntats cun la cumünanza da nos cumün. Els descrivan fich bain che chi tils occupa ed eir che chi tils fa curaschi, ma legiai svess. Dal rest es il tema cumünanza eir il motiv cha no vain quista jada 'fusiunà' las differentas paginas da las scoulas.

Cumünanza

Eu m'algord amo bain dal prüm di da scoula giò Scuol e cun quai eir da las temmas ch'eu vaiva da quel temp. Sco scolar da Tarasp s'esa adüsà d'esser part d'üna scoula ed eir classa fich pitschna. Il müdamaint in üna gronda scoula sco quella da Scuol es tras quai ün pass important per ün giuven scolar. Natüralmaing nu d'eira be la scoula cun tuot las stanzas chi's vaiva da tscherchar üna temma. La plü gronda temma d'eira da na chattar nouvs amis. Eu svessa nu'm fai va però massa blers pissers perquai ch'eu cugnuschaiva fingiä üna gronda part dals

scolars e da las scolaras e quai dal temp da scoulina. Our da la vista d'hozindi esa fich divertent a pensar inavo a las temmas da nu chattar la dretta stanza da scoula. Eir la temma da na chattar nouvs amis nu s'ha verifichada. Infra cuort temp s'han fuormats nouvs contacts opür cha quels da scoulina s'han sviluppats inavant. Surtuot as vaiva bler da quintar davo ses ons scoula primara in scoulas separadas. Quist aspet da la cumünanza es sgüra da valütar sco aspet positiv, il qual ha simplifichà meis müdamaint da scoula.

Retrospectivmaing possa dir ch'eu n'ha bod

ün zich da rier cun pensar a tuot mias temmas ch'eu vaiva da quel temp. Uossa suna illa terza secundara e n'ha però badà cha tscherts pissers cumparan darcheu: nus tuots stain davant üna decisiun, davant üna nouva via per nos futur cun ün nouv rauogl da cumünanza. Eir uossa existan darcheu tschertas temmas. L'aspel da la cumünanza am simplificharà però eir in meis avegnir meis bainstar. Sch'eu guard quant bain ch'eu am n'ha integrà illa scoula secundara da Scuol, lura nu'm fetscha gronds pissers cha quai nu'm reuschischa eir in mia nouva classa illa scoula media sü Ftan. Juri Antenen, 3. secundara, Tarasp

Quists pleuds filosofics da l'Irlandais George Bernard Shaw chi descrivan co chi's po gnir cun üna collauraziun a nouvas ideas, han miss la basa i'l s-chalins ots da Sent e da Scuol per crear cumünanzas d'imprender professiunalas tanter la magistraglia dals s-chalins ots dal cumün da Scuol. Al principi da l'on da scoula 2016-2017 sun gnüdas creadas, sün intimaziun dals mainascoulas, quatter cumünanzas d'imprender professiunalas tanter las personas d'instrucziun. Las cumünanzas d'imprender culs roms d'instrucziun „matematica e geometria“, „rumantsch e tudaish-ch“, „inglais“ e „gimnastica“ as cumpuanon da raduond tschininch magistras e magisters. Sper las cumünanzas d'imprender dal s-chalin ot s'ha fuormada eir üna gruppera cullas pedagogas curativas da tuot il cumün da Scuol in collauraziun culla psicologa da scoula Carima Tosio. Davo duos ons da scoula daraja otras cumünanzas d'imprender cun oters roms d'instrucziun e cun otras cumposizioni da la magistraglia.

Ils böts da quistas cumünanzas d'imprender sun sainza dubi dad optimar l'imprender per scolaras e scolars, da s-chaffir ün sustegn pel ambiant d'instruir e d'imprender, la reflexiun e'l svilup da l'instrucziun e la collauraziun da las personas d'instrucziun dals s-chalins ots da Sent e da Scuol.

Las experienzas davo ils prüms inscunters dürant l'on da scoula scuors sun tenor mai trasoura positivas: La magistraglia vezza e bada il profit da quistas cumünanzas d'imprender ed indirectamaing daja tras tals inscunters üna megldr'instrucziun e megldras occasiuns d'imprender pellas scolaras e's scolars.

Eu sun fich persvas cha güsta hozindi, dürant l'introducziun e la realisaziun dal plan d'instrucziun 21, saja la collauraziun e'l dialog tanter las personas d'instrucziun in möd professiunal üna part importante dal minchadi da scoula. Be uschè po üna scoula acumplic las aspettativas d'hozindi ed esser üna scoula moderna ed innovativa.

Legiond quistas lingias sperescha cha mincha lectur/-a haja fat surasen cha tant la scoula e las personas d'instrucziun, sco eir il möd d'imprender e d'instruir s'ha sviluppà e professiunalisà dürant ils ultims ons per bainquant.

Students from Sent and Scoul invent their own weird and wacky games

by Regula & Claudio, 21/4/17; 10:13

Games and competitions are very popular in Great Britain. Schools and universities regularly compete against each other, there are quiz nights in pubs. Not to forget the famous Highland games, and village fêtes, where young and old people enjoy and join the not always serious, but funny and exciting games. During our English lessons we found out a lot about weird and wacky games, especially the Highland games with its very old Scottish and Celtic tradition. In our classrooms, the students were asked to invent their own weird and wacky games, to write a rule card, a game description and to present their games in front of the class. We English teachers from Scoul and Sent now and then exchange our ideas, work together on different subjects and also benefit from each other's experiences. That was when we had the idea of organising our own Highland games. Trying out the students' own games was a perfect opportunity to bring the English classes of Scoul and Sent together and to spend the morning lessons in an out-of-the-classroom way. The students' games turned out to be very funny and challenging. The mixed teams allowed the students to get to know each other better, not to mention that the students were using their English speaking skills during the whole morning. The aim of being able to invent, present and play games, to speak English, to have fun and experience community was totally achieved.

Weird and wacky games

What do you think of?

by Rafael, 19/4/17; 09:30

The idea of playing this kind of games was phenomenal. I was so motivated especially because the fun factor was so huge. The organisation was pretty good. Everything was ready as we arrived in Sent. I was really satisfied with my teammate. The community was also very gracious. It was the first time that Scoul and Sent let the rivalry aside. Obviously such projects have to be continued because it's a really nice way to have more fun speaking English.

by Dea, 19/4/17; 09:30

My impression is that the weird and wacky games event in Sent was a perfect opportunity to work with other students. We had a lot of fun during the whole morning. The games were very interesting and the fun factor was huge. Working with other students is a great experience. I knew a lot of them from older times. I would like to continue working with other students and share more funny moments with them.

Weird and wacky games

What do you think of?

by Jann, 19/4/17; 09:21

In my opinion it was just great to play these awesome and funny games with different people than we are used to. Some of the games were really strange and weird – most of them were phenomenal as for example the game Pong in the Pringle, which was quite hard to play. For me, it wasn't a big difficulty to work with the pupils from Scoul. It's worth to repeat such a thing, because it was a fun morning.

Weird and wacky games

What do you think of?

by Clot, 19/4/17; 09:19

I think it was a good idea to work with students we don't know so well. In my opinion the biggest part of the games were really original and crazy. For me it was really nice to work once with other students. I would like doing more such special events.

Weird and wacky games

What do you think of?

by Nando, 19/4/17; 09:30

It was a fun morning with all those different games. I think this kind of project should definitely be repeated. It's a very unique concept. It would only be fair if not only our class but also all the students of our school could once in a school career have the chance to invent such weird and wacky games and test them together with other students.

Weird and wacky games

What do you think of?

by Marisa, 19/4/17; 09:27

I appreciated the fact that we met the students from Sent. They are as crazy as we are, so Sent and Scoul - a perfect match! In my opinion we should organise more such projects in order to make new friendships. I personally liked the action games the most. The Pong in the Pringle was very funny too. There you had to turn around 20 times before playing which made you feel dizzy.

by Noam, 19/4/17; 09:28

I think the idea of this project was really nice and it had some good aspects as for example the mixed teams. We spoke a lot of English during this morning without really noticing it. I also liked the fact that we learnt a lot of new vocabulary. It would have been nice to have more time to get to know each other better. My favourite game was Stick Ball 2 which was really funny and where you had to concentrate a lot.

At first, I didn't really like the idea of going to spend a game day with other students. When we arrived in Sent and after having made the groups, it slowly turned funnier. I enjoyed the games and my teammates were friendly. Some of the games were really cool and fun to play, but there were also some boring and not so interesting ones. I really liked working in a group with students from another village. In my opinion it was a really nice and wacky event, a very cool experience.

In my opinion it was a very funny morning. What I think we could have done better was the beginning. We arrived and then just started. I think it would have been better to go through all the games before starting. Unfortunately it didn't really work with the referees. I think it was a good idea to mix the groups. Most of the games were very funny and weird so we had a lot of fun. I hope we'll have more events like this.

In my opinion the Weird and Wacky morning was a very good idea. It was real fun to play games with the students from Scuol. There were a lot of different and good games. It was very cool, because I know all the students from Scuol. It is worth to maintain such projects because it is funny and we learn to work with other students. And not to forget - we talked a lot of English during this morning.

In my opinion the "weird-and-wacky-games-morning" was... unusual, to say the least. The games were creative and fun. You still could feel the rivalry between Scuol and Sent here and there, but pretty much everyone was able to put it aside. When we pranked the class of Sent while playing Tug of War, the reaction of the teachers was in my opinion a bit exaggerated. One of my favourite games was Stick Ball 1. The concept of shooting a ball with a stick was nothing new, but the implementation was very creative.

The positive thing about it all was that we had a lot of fun with the students from Sent. Playing games is always much better than going to school. My game, the Pink Mono Ball was so funny. We didn't really respect the rules, which made it even more exciting. I also liked the other games a lot. I didn't know my teammate Jann from Sent, but during this morning I spent a lot of time with him. In my opinion all the students from Sent and Scuol, and of course the teachers too, had a great time together.

In my opinion it was very funny, because the games were strange and weird - as they had to be. It was also funny to work with students from another village. We know each other and some of them are friends of us. It is worth to continue with such projects, because it's school in a different way and we learn and benefit from other students.

I personally enjoyed this weird and wacky event. It should exactly be like that, we have to stay together, it doesn't matter if you are from Scuol or Sent! We are a community of villages! Of course I benefit from other students, because we were speaking and teaching in English. It shows that we profit more in teams than just with sitting in a room and writing texts. The main aim, why we learn English should be, and certainly is, being able to communicate and that is what we achieved!

In my opinion it was a nice and interesting morning. I liked being together with other students, trying out their games and listening to their English pronunciation. We all used a lot of fantasy with creating these games. My favourite game was Paper shooting. It was funny and special.

In my opinion it was nice visiting the class of Sent and playing games together. One interesting thing was to listen to the English pronunciation of the other students. We were playing very strange games, but that was the point of the whole story. It is an excellent thing to take benefit of the ideas from others in order to play these games again during your free time. I think it is worth organising such projects, because you play games and at the same time you speak English.

I only have positive impressions, it was real fun and I also found it good to mix up the groups. So you had to play with people you don't know. My favourite games were Boot Fishing and the Airplane game. I really enjoyed the day with the students from Scuol and my group was very funny. In doing such projects we can benefit more than just writing on a paper or answer some questions. I would do it again.

In my opinion the weird and wacky morning was amazing. It was pretty cool to share our experiences with the students from Scuol. The games were rather easy to play but it was difficult to score. At some points I was a bit bored because we had to wait a long time until we could go to the next game. My favourite game was the Tug of War because there we could compare which team was stronger. If such a day will be repeated with other classes, I'm sure those students will also be pleased.

In my opinion we were a good group, always fair and scoring each other correctly. It was a good idea to organise such an event. I think that some games would have been funnier with more students playing. Nevertheless this project was very interesting and I think it was more exciting together with the students of Sent than only with our class. A fantastic and funny event, let's do it again.
